QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended September 27, 2020

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Transition Period From _____ To _____

COMMISSION FILE NUMBER: 000-22671

QUICKLOGIC CORPORATION

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

77-0188504
(I.R.S. Employer
Identification No.)

2220 Lundy Avenue, San Jose, CA 95131-1816
(Address of principal executive offices including zip code))

(408) 990-4000
(Registrant's telephone number, including area code)

Securities registered pursuant Section 12(b) of the act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$.001 per share	QUIK	The Nasdaq Capital Market

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definition of "large accelerated filer," "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated Filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller Reporting Company	<input checked="" type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Securities Exchange Act).

Yes No

As of October 30, 2020, there were 11,068,479 shares of registrant's common stock, par value \$0.001 per share, outstanding.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 — The Company and Basis of Presentation

QuickLogic Corporation (“QuickLogic” or “Company”) was founded in 1988 and reincorporated in Delaware in 1999. The Company enables

Original Equipment Manufacturers (“OEMs”) to maximize battery life for highly differentiated, immersive user experiences with Smartphone, Wearable, Hearable, Tablet and Internet-of-Things (“IoT devices”). QuickLogic delivers these benefits through industry leading ultra-low power customer programmable System on Chip (“SoC”) semiconductor solutions, embedded software, and algorithm solutions for always-on voice and sensor processing, and enhanced visual experiences. The Company is a fabless semiconductor provider of comprehensive, flexible sensor processing solutions, ultra-low power display bridges, and ultra-low power Field Programmable Gate Arrays (“FPGAs”). The Company’s wholly owned subsidiary, SensiML Corporation (“SensiML”) provides Analytics Toolkit, which is used in many of the applications where the Company’s ArcticPro™, eFPGA intellectual property (“IP”) plays a critical role. SensiML Analytics toolkit is an end-to-end software suite that provides OEMs a straightforward process for developing pattern matching sensor algorithms using machine learning technology that are optimized for ultra-low power consumption.

The accompanying interim condensed consolidated financial statements are unaudited. In the opinion of the Company’s management, these statements have been prepared in accordance with the United States generally accepted accounting principles (“U.S. GAAP”), and include all adjustments, consisting only of normal recurring adjustments, necessary to provide a fair statement of results for the interim periods presented. The Company recommends that these interim condensed consolidated financial statements be read in conjunction with the Company’s Form 10-K for the year ended December 29, 2019, which was filed with the Securities and Exchange Commission (“SEC”) on March 13, 2020. Operating results for the three and nine months ended September 27, 2020 are not necessarily indicative of the results that may be expected for the full year.

QuickLogic’s fiscal year ends on the Sunday closest to December 31 and each fiscal quarter ends on the Sunday closest to the end of each calendar quarter. QuickLogic’s third fiscal quarters for 2020 and for 2019 ended on September 27, 2020 and September 29, 2019, respectively.

COVID-19 - Impact on Business

On January 30, 2020, the World Health Organization (“WHO”) declared a global emergency due to the COVID-19 pandemic, and on February 28, 2020, the WHO raised its assessment of the threat from high to very high at a global level. The social and economic impact of the COVID-19 outbreak has continued to increase exponentially since this declaration. The outbreak has resulted in significant governmental measures being implemented to control the spread of COVID-19, including, among others, restrictions on travel, business operations and the movement of people in many regions of the world in which the Company operates, and the imposition of shelter-in-place or similarly restrictive work-from-home orders impacting many of the Company’s offices and employees, including those located in the United States. As a result, the Company has temporarily closed or substantially limited the presence of personnel in its offices in several impacted locations, implemented travel restrictions and withdrawn from various industry events. The Company has also experienced some disruption and delays in its supply chain, customer deployment plans, and logistics challenges, including certain limitations on its ability to access customer fulfillment and service sites.

As such, while COVID-19 has had an impact on the Company’s financial results on the three and nine months ended September 27, 2020, the COVID-19 pandemic and its potential effects on the Company’s business in its fiscal 2020 remain dynamic, and the broader implications for its business and future results of operations remain uncertain. These implications could include further disruptions or restrictions on the Company’s ability to source, manufacture or distribute its products, including temporary disruptions to the facilities of its contract manufacturers in China, Taiwan, Philippines and Singapore, or the facilities of its suppliers and their contract manufacturers globally. Additionally, multiple countries have imposed and may further impose restrictions on business operations and movement of people and products to limit the spread of COVID-19. Delays in production or delivery of components or raw materials that are part of the Company’s global supply chain due to restrictions imposed to limit the spread of COVID-19 could delay or inhibit its ability to obtain the supply of components and finished goods. If COVID-19 becomes more prevalent in the locations where the Company, its customers or suppliers conduct business, or the Company experiences more pronounced disruptions in its operations, the Company may experience constrained supply or curtailed demand that may materially adversely impact its business and results of operations. In addition, any other widespread health crisis that could adversely affect global and regional economies, financial markets and overall demand environment for the Company’s products could have a material adverse effect on the Company’s business, cash flows or results of operations. It is difficult to accurately predict the full impact that COVID-19 will have on the Company’s future results from operations, financial condition, liquidity and cash flows due to numerous uncertainties, including the duration and severity of the pandemic and related containment measures. The Company will continue to closely monitor the pandemic’s associated effects on all aspects of the business.

Restructuring

In January 2020, the Company implemented a restructuring plan to lower annual operating expenses and strategically align resources around the Company’s open source, AI SaaS and IP Leasing businesses. The restructuring plan was approved by the Company’s Board of Directors on January 24, 2020. Pursuant to the restructuring plan, the Company recorded \$624,000 of restructuring charges during the nine-month period ended September 27, 2020, consisting primarily of employee severance related costs and facility costs. During the third quarter, the Company incurred additional restructuring expenses of \$111,000 relating to the closure of the San Diego and India facilities.

Liquidity

The Company has financed its operations and capital investments through sales of common stock, finance and operating leases, a revolving line of credit and cash flows from operations. As of September 27, 2020, the Company’s principal sources of liquidity consisted of cash and cash equivalents and restricted cash of \$24.7 million, including \$15.0 million drawn down from its revolving line of credit (“Revolving Facility”) with Heritage Bank of Commerce (“Heritage Bank”), and \$1.2 million loan proceeds received under Paycheck Protection Program (“PPP”). On November 6, 2019 the Company entered into a First Amendment to the Revolving Facility with Heritage Bank to extend the maturity date for one year through September 28, 2021. Under this amendment the Revolving Facility advances shall bear interest, on the outstanding daily balance thereof, at a rate per annum equal to the greater of (i) one half of one percentage point (0.50%) above the Prime Rate, or (ii) five and one half of one percentage points (5.50%).

On May 6, 2020, the Company entered into a loan agreement with Heritage Bank for a loan of \$1.2 million pursuant to the PPP under the CARES Act enacted on March 27, 2020. See Note 6 to the Unaudited Condensed Consolidated Financial Statements for the details.

On June 22, 2020, the Company closed an underwritten public offering of 2.5 million shares of common stock, \$0.001 par value per share at a price of \$3.50 per share. The Company received total gross proceeds from the offering of approximately \$9.3 million, including \$0.5 million received from the overallotment under the terms of the Underwriting Agreement to purchase up to an additional 375,000 shares. Underwriters partially exercised the option to purchase 141,733 additional shares of Common Stock. The Company incurred approximately \$1.2 million of stock issuance costs for this offering. Total net proceeds received from this offering was \$8.1 million after deducting underwriting discounts and other stock issuance costs. See Note 8 to the Unaudited Condensed Consolidated Financial Statements for the details.

Various factors can affect the Company’s liquidity, including, among others: the level of revenue and gross profit as a result of the cyclical nature of the semiconductor industry; the conversion of design opportunities into revenue; market acceptance of existing and new products including solutions based on its ArcticLink®, PolarPro® platforms, eFPGA, EOS S3 SoC, Quick AI solution, and SensiML software tools; fluctuations in revenue as a result of product end-of-life; fluctuations in revenue as a result of the stage in the product life cycle of its customers’ products; costs of securing access to and availability of adequate manufacturing capacity; levels of inventories; wafer purchase commitments; customer credit terms; the amount and timing of research and development expenditures; the timing of new product introductions; production volumes; product quality; sales and marketing efforts; the value and liquidity of its investment portfolio; changes in operating assets and liabilities; the ability to obtain or renew debt financing and to remain in compliance with the terms of existing credit facilities; the ability to raise funds from the sale of equity in the Company; the ability to capitalize on synergies with our newly acquired subsidiary SensiML; the issuance and exercise of stock options and participation in the Company’s employee stock purchase plan; and other factors related to the uncertainties of the industry and global economics.

Over the longer term, the Company anticipates that sales generated from its new product offerings, existing cash and cash equivalents, together with financial resources from its Revolving Facility with the Heritage Bank, assuming renewal of the Revolving Facility or the Company entering into a new debt agreement with an alternative lender prior to the expiration of the revolving line of credit in September 2021, and its ability to raise additional capital in the public capital markets will be sufficient to satisfy its operations and capital expenditures. However, the Company cannot provide any assurance that it will be able to raise additional capital, if required,

or that such capital will be available on terms acceptable to the Company. The inability of the Company to generate sufficient sales from its new product offerings and/or raise additional capital if needed could have a material adverse effect on the Company's operations and financial condition, including its ability to maintain compliance with its lender's financial covenants.

Reverse Stock Split

Effective on December 23, 2019, the Company enacted a 1-for-14 reverse stock split of its outstanding common stock, in which, every 14 issued and outstanding shares of common stock of the Company were automatically combined into one issued and outstanding share of common stock without any change in the par value per share. Stockholders who would have otherwise been entitled to fractional shares of common stock as a result of the reverse stock split received a cash payment in lieu of receiving fractional shares. All share, equity awards, and per share amounts contained in this Form 10-Q and the accompanying Unaudited Condensed Consolidated Financial Statements have been adjusted to reflect the reverse stock split for all prior periods presented. Warrants issued in connection with the May 2018 stock issuance were also adjusted to reflect the reverse stock split for all periods presented.

Principles of Consolidation

The unaudited condensed consolidated financial statements include the accounts of QuickLogic and its wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated.

Foreign Currency

The functional currency of the Company's non-U.S. operations is the U.S. dollar. Accordingly, all monetary assets and liabilities of these foreign operations are translated into U.S. dollars at current period-end exchange rates and non-monetary assets and related elements of expense are translated using historical exchange rates. Income and expense elements are translated to U.S. dollars using the average exchange rates in effect during the period. Gains and losses from the foreign currency transactions of these subsidiaries are recorded as interest income and other expense, net in the unaudited condensed consolidated statements of operations.

Uses of Estimates

The preparation of these consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities and the reported amounts of revenue and expenses during the period. Actual results could differ materially from those estimates, particularly in relation to revenue recognition, the allowance for doubtful accounts, sales returns, valuation of long-lived assets including mask sets, valuation of goodwill, capitalized internal-use software and related amortizable lives and intangibles related to the acquisition of SensiML, including the estimated useful lives of acquired intangible assets, valuation of inventories including identification of excess quantities, market value and obsolescence, measurement of stock-based compensation awards, accounting for income taxes and estimating accrued liabilities.

Contracts with customers often include promises to transfer multiple products and services to a customer. Determining whether products and services are considered distinct performance obligations that should be accounted for separately versus together may require significant judgment.

Judgment is required to determine the Stand-alone Selling Price ("SSP") for each distinct performance obligation. The Company uses a range of amounts to estimate SSP when each of the products and services are sold separately and determines the discount to be allocated based on the relative SSP of the various products and services when products and services sold are bundled. In instances where SSP is not directly observable, such as when the Company does not sell the product or service separately, it determines the SSP using information that may include market conditions and other observable inputs. The Company typically has more than one SSP for individual products and services due to the stratification of those products and services by customers. In these instances, the Company may use information such as the size of the customer, customer tier, type of the technology used, customer demographics, geographic region and other factors in determining the SSP.

Concentration of Risk

The Company's accounts receivable are denominated in U.S. dollars and are derived primarily from sales to customers located in North America, Asia Pacific, and Europe. The Company performs ongoing credit evaluations of its customers and generally does not require collateral. See Note 12 to the Unaudited Condensed Consolidated Financial Statements for information regarding concentrations associated with accounts receivable.

Note 2 — Significant Accounting Policies

During the nine-month period ended September 27, 2020, there were no changes in the Company's significant accounting policies from its disclosures in the Annual Report on Form 10-K for the year ended December 29, 2019, except for the new accounting standards adopted during the nine months ended September 27, 2020. For a discussion of the significant accounting policies, please see the Annual Report on Form 10-K for the fiscal year ended December 29, 2019, filed with the SEC on March 13, 2020. For a discussion of the new accounting standards adopted during the first nine months of 2020, see "New Accounting Pronouncements" below.

Fair Value Measurements

The Company's cash, cash equivalents and restricted cash include money market account balance of \$24.1 million and \$20.9 million as of September 27, 2020 and December 29, 2019, respectively. Fair value of the Company's money market account balance with Heritage Bank equals to book value.

Restricted cash

Cash, cash equivalent and restricted cash includes an amount of \$100,000 pledged as cash security related to the use of credit cards as of September 27, 2020 and December 29, 2019.

New Accounting Pronouncements

Recently adopted accounting pronouncements:

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU"), No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. This new standard modifies certain disclosure requirements on fair value measurements. The Company adopted this standard prospectively effective December 30, 2019 with no impact on the Consolidated Financial Statements.

In August 2018, the FASB issued ASU No. 2018-15, *Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementations Costs Incurred in a Cloud Computing Arrangement That is a Service Contract*. Under the new standard, implementations costs related to a cloud computing arrangement will be deferred or expensed as incurred, in accordance with the existing internal-use software guidance for similar costs. The new standard also prescribes the balance sheet, income statement and cash flow classification of the capitalized implementation costs and related amortizations expenses. The effective date for public companies is for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. For all other entities, the effective date is fiscal years beginning after December 15, 2021. The Company adopted this standard prospectively effective December 30, 2019 with no impact on the Consolidated Financial Statements.

In June 2016, FASB issued ASU No. 2016-13 ("ASU 2016-13") *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, which requires the measurement and recognition of expected credit losses for financial assets held at amortized cost. ASU 2016-13 replaces the existing incurred loss impairment model with an expected loss model which requires the use of forward-looking information to calculate credit loss estimates. It also eliminates the concept of other-than-temporary impairment and requires credit losses related to certain available-for-sale debt securities to be recorded through an allowance for credit losses rather than as a reduction in the amortized cost basis of the securities. These changes result in earlier recognition of credit losses. The Company adopted ASU 2016-13 using the modified retrospective approach on December 30, 2019 with no impact on the Condensed Consolidated Financial Statements.

New accounting pronouncements not yet adopted:

In December 2019, the FASB issued ASU No. 2019-12, *Simplifying the Accounting for Income Taxes*, which removes certain exceptions to the general principles of ASC 740, in order to reduce the cost and complexity of its application. These changes include elimination to the exceptions for (1) Intra-period tax allocation, (2) Deferred tax liabilities related to outside basis differences, and (3) Year-to-date losses in interim periods. This standard is effective for the fiscal years beginning after December 15, 2020. The Company is currently evaluating the potential impact on its Consolidated Financial Statements.

In August 2020, the FASB issued ASU No. 2020-06, *Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity*, which address issues identified as a result of the complexity associated with applying generally accepted accounting principles for certain financial instruments with characteristics of liabilities and equity. This amendment is effective for public business entities that meet the definition of a Securities and Exchange Commission ("SEC") filer, excluding entities eligible to be smaller reporting companies as defined by the SEC, for fiscal years beginning after December 15, 2021, including interim periods within those fiscal years. The Company is currently evaluating the potential impact on its Consolidated Financial Statements.

Note 3 — Net Loss Per Share

Basic loss per share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted net loss per share was computed using the weighted average number of common shares outstanding during the period plus potentially dilutive common shares outstanding during the period under the treasury stock method. In computing diluted net loss per share, the weighted average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options and warrants.

For the three and nine months ended September 27, 2020 and September 29, 2019, 979,363 and 559,587 shares of common stock, respectively, associated with equity awards and the estimated number of shares to be purchased under the current offering period of the 2009 Employee Stock Purchase Plan were outstanding. These shares were not included in the computation of diluted net loss per share as they were considered anti-dilutive due to the net losses the Company experienced during these periods. Warrants to purchase up to 386,100 shares were issued in connection with May 29, 2018 stock offering were also not included in the diluted loss per share calculation of the three and nine months ended September 27, 2020 and September 29, 2019 as they were also considered anti-dilutive due to the net loss the Company experienced during these periods.

All shares, equity awards, and per share amounts have been adjusted to reflect the 1-for-14 reverse stock split of the Company's outstanding common stock for all periods presented.

Note 4 — Balance Sheet Components

The following table provides details relating to certain balance sheet line items as of September 27, 2020, and December 29, 2019 (in thousands):

	September 27, 2020	December 29, 2019
Inventories:		
Raw materials	\$ 191	\$ 222

The following table provides the details of expected future annual amortization of intangible assets, based upon the current useful lives as of September 27, 2020 (in thousands):

Annual Fiscal Years	
2020 (remaining period)	\$ 38
2021	107
2022	107
2023	107
2024	107
Thereafter	431
Total	<u>\$ 897</u>

Note 6 — Debt Obligations*Revolving Line of credit*

On September 28, 2018, the Company entered into a Loan and Security Agreement (“Loan Agreement”) with Heritage Bank. The Loan Agreement provided for, among other things, the Revolving Facility with aggregate commitments of \$9,000,000.

On December 21, 2018, the Company entered into an Amended and Restated Loan and Security Agreement (“Amended and Restated Loan Agreement”) with Heritage Bank to replace in its entirety the Loan Agreement. The Amended and Restated Loan Agreement increased the Revolving Facility from \$9,000,000 to \$15,000,000. The Amended and Restated Loan Agreement requires the Company to maintain at least \$3,000,000 in unrestricted cash at Heritage Bank.

On November 6, 2019 the Company entered into a First Amendment to the Amended and Restated Loan Agreement (“First Amendment”) to extend the maturity date of the Revolving Facility for one year through September 28, 2021. Under this First Amendment, the Revolving Facility advances shall bear interest, on the outstanding daily balance thereof, at a rate per annum equal to the greater of (i) one half of one percentage point (0.50%) above the Prime Rate, or (ii) five and one half of one percentage points (5.50%).

As of September 27, 2020 and December 29, 2019, the Company had \$15.0 million of revolving debt outstanding with an interest rates of 5.5% per annum. The Bank has a first priority security interest in substantially all of the Company's tangible and intangible assets to secure any outstanding amounts under the Amended and Restated Loan Agreement. The Company was in compliance with all loan covenants under the Amended and Restated Loan Agreement as of the end of the current reporting period. On September 28, 2020, the Company repaid the \$15.0 million loan.

Payroll Protection Program Loan

On May 6, 2020, the Company entered into a loan agreement with Heritage Bank (“PPP Loan”) for a loan of \$1.2 million pursuant to the PPP under the CARES Act, as implemented by the U.S. Small Business Administration.

The PPP Loan is evidenced by a promissory note (“Note”) dated May 6, 2020, and matures two years from the disbursement date. The Note bears interest at a rate of 1.00% per annum, with the first six months of interest deferred. Principal and interest are payable monthly commencing six months after the disbursement date and may be prepaid by the Company at any time prior to maturity with no prepayment penalties. The Note contains customary events of default relating to, among other things, payment defaults or breaches of the terms of the Note. Upon the occurrence of an event of default, the lender may require immediate repayment of all amounts outstanding under the Note.

The principal and interest of the Loan are repayable in 18 monthly equal installments of \$67,000 each starting in December 2020. Interest accrued in the first six months is included in the monthly installments. Installments must be paid by the fifth calendar day of each month.

On June 5, 2020, the Paycheck Protection Flexibility Act (“PPPFA”) was signed into law. Among other changes, the PPPFA (i) reduced the amount of the loan required to be spent on payroll from 75% to 60%, (ii) extended the covered period to 24 weeks from 8 weeks, and (iii) extended the repayment term of PPP loan from 2 years to 5 years. For the loans disbursed before June 5, 2020, the PPPFA provides the option to opt for 24 weeks for spending the loan instead of 8 weeks. The Company has opted for 24 weeks to spend the PPP Loan. As of September 27, 2020, the Company fully utilized the loan proceeds in compliance with the PPPFA guidelines. The Company expects to apply for the full loan forgiveness in the fourth quarter of 2020. Forgiveness of this loan will only be recognized if/when legal release is received.

Note 7 — Leases

The Company entered into operating leases for office space for its headquarter, domestic and foreign subsidiaries and sales offices. Finance leases are primarily for engineering design software. Operating leases generally have lease terms of 1 year to 5 years. Finance leases are generally 2 years to 3 years. As of September 27, 2020, the balance of right-of-use assets was approximately \$2.0 million and lease liability was approximately \$2.0 million relating to the operating and finance leases signed for the premises of its headquarters in San Jose and its subsidiaries SensiML in Oregon and India. Lease term of San Diego facility expired in July, 2020. The Company did not renew the lease agreement as San Diego office was closed. On July 10, 2020, Indian subsidiary leased a smaller office premises of approximately 1100 square feet for a period of eleven months to accommodate the reduced headcount. Effective July 2020, the rental expense of the old office is expensed to restructuring charges. Total rent expense for the three months ended September 27, 2020 and September 29, 2019 was approximately \$150,000 and \$192,000, respectively. Total rent expense for the nine months ended September 27, 2020 and September 29, 2019 was approximately \$455,000 and \$629,000, respectively.

The following table provides the expenses related to operating and finance leases (in thousands):

	Three Months Ended		Nine Months Ended	
	September 27, 2020	September 29, 2019	September 27, 2020	September 29, 2019
Operating lease costs:				
Fixed	\$ 146	\$ 186	\$ 440	\$ 596
Short term	4	6	15	33
Total	<u>\$ 150</u>	<u>\$ 192</u>	<u>\$ 455</u>	<u>\$ 629</u>
Finance lease costs:				
Amortization of ROU asset	\$ 91	\$ 91	\$ 224	\$ 273
Interest	9	3	29	14
Total	<u>\$ 100</u>	<u>\$ 94</u>	<u>\$ 253</u>	<u>\$ 287</u>

The following table provides the details of supplemental cash flow information. The right-of-use assets obtained in exchange for new finance and operating lease liabilities represent the new operating and finance leases entered into during the nine months ended September 27, 2020 and September 29, 2019 (in thousands):

	Nine Months Ended	
	September 27, 2020	September 29, 2019
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows used for operating leases	\$ 427	\$ 633
Operating cash flows used for finance leases	29	20
Financing cash flows used for financing leases	179	283
Total	<u>\$ 635</u>	<u>\$ 936</u>
Right-of-use assets obtained in exchange for obligations:		
Operating leases	\$ —	\$ 1,920
Finance leases	773	250
Total	<u>\$ 773</u>	<u>\$ 2,170</u>

The following table provides the details of right-of-use assets and lease liabilities as of September 27, 2020 and December 29, 2019 (in thousands):

	<u>September 27, 2020</u>	<u>December 29, 2019</u>
Right-of-use assets:		
Operating leases	\$ 1,344	\$ 2,200
Finance leases	651	170
Total right of use assets	<u>\$ 1,995</u>	<u>\$ 2,370</u>
Lease liabilities:		
Operating leases	\$ 1,386	\$ 1,816
Finance leases	620	471
Total lease liabilities	<u>\$ 2,006</u>	<u>\$ 2,287</u>

The following table provided the details of future lease payments for operating and finance leases as of September 27, 2020 (in thousands):

Annual Fiscal Years	<u>Operating Leases</u>	<u>Finance Leases</u>
2020 (Remaining period)	\$ 110	\$ 103
2021	488	281
2022	409	278
2023	422	—
2024	106	—
Total lease payments	<u>1,535</u>	<u>662</u>
Less: Interest	<u>(149)</u>	<u>(42)</u>
Present value of lease liabilities	<u>\$ 1,386</u>	<u>\$ 620</u>

The following table provides the details of lease terms and discount rates as of September 27, 2020 and December 29, 2019:

	<u>September 27, 2020</u>	<u>December 29, 2019</u>
Right-of-use assets:		
Weighted-average remaining lease term (years)		
Operating leases	3.26	3.81
Finance leases	2.25	2.65
Weighted-average discount rates:		
Operating leases	6.00%	6.00%
Finance leases	5.50%	5.81%

Note 8 — Stockholders' Equity

Common and Preferred Stock

As of September 27, 2020, the Company was authorized to issue 200 million shares of common stock and had 10 million shares of authorized but unissued undesignated preferred stock. Without any further vote or action by the Company's stockholders, the Board of Directors has the authority to determine the powers, preferences, rights, qualifications, limitations or restrictions granted to or imposed upon any wholly unissued shares of undesignated preferred stock.

Issuance of Common Stock

On March 15, 2019, the Company filed a shelf registration statement on Form S-3, under which the Company may, from time to time, sell securities in one or more offerings up to a total amount of \$75 million. The Company's shelf registration statement was declared effective on March 29, 2019.

On June 21, 2019, the Company closed an underwritten public offering of 1.3 million shares of common stock, \$0.001 par value per share at a price of \$7.00 per share, which included 171,429 shares issued pursuant to the underwriters' full exercise of their over-allotment option. The Company received net proceeds from the offering of approximately \$8.0 million, net of underwriter's commission and other offering expenses.

On June 22, 2020, the Company closed an underwritten public offering of 2.5 million shares of common stock, \$0.001 par value per share at a price of \$3.50 per share. The Company received gross proceeds from the offering of approximately \$8.8 million and incurred stock issuance costs of approximately \$1.1 million. Under the terms of the underwriting agreement, the Company granted the underwriter a 30-day option to purchase up to an additional 1375,000 shares of common stock to cover over-allotments. On July 21, 2020, the underwriter's partially exercised the option to purchase 141,733 additional shares of common stock in connection with the offering, resulting in additional gross proceeds to the Company of approximately \$0.5 million and incurred additional stock issuance costs of approximately \$52,000. Total gross proceeds received from this offering was approximately \$9.3 million and incurred total stock issuance costs of approximately \$1.2 million. Net proceeds received from this offering after deducting stock issuance costs was approximately \$8.1 million.

As of September 27, 2020, warrants exercisable for 386,100 shares of common stock at an exercise price of \$9.32 per share remain outstanding.

Note 9 — Employee Stock Plans

2009 Stock Plan

On April 24, 2019, the 2009 Stock Plan was replaced by the 2019 Stock Plan with an extended term of ten years through March 15, 2028. The remaining balance of available shares under the 2009 Plan of 299,070 were cancelled as of April 24, 2019.

2019 Stock Plan

On April 24, 2019, the Company's Board of Directors and shareholders approved the 2019 Stock Plan ("2019 Plan") to replace the 2009 Plan. Under the 2019 Plan, 357,143 shares of common stock are available for grants, plus any shares subject to any outstanding options or other awards granted under the Company's 2009 Plan that expire, are forfeited, cancelled, returned to the Company for failure to satisfy vesting requirements, settled for cash or otherwise terminated without payment being made thereunder.

The 2019 Plan was amended and restated by the Board of Directors on March 5, 2020 and approved by the Company's stockholders on April 22, 2020 to, among other things, reserve an additional 550,000 shares of common stock for issuance under the 2019 Plan. As of September 27, 2020, approximately 286,628 shares of the Company's common stock were reserved for issuance under the 2019 Plan.

2009 Employee Stock Purchase Plan

The 2009 Employee Stock Purchase Plan ("2009 ESPP") was adopted in March 2009. The 2009 ESPP was amended by the Board of Directors in January 2015 and in February 2017, and was approved by the Company's stockholders on April 23, 2015 and April 26, 2017, to reserve an additional 71,429 and 107,143 shares of common stock, respectively, for issuance under the 2009 ESPP.

The 2009 ESPP was amended and restated by the Board of Directors on March 5, 2020, and approved by the Company's stockholders on April 22, 2020 to, among other things, extend the term of the plan until March 5, 2029.

Further, the 2009 ESPP was amended and restated by the Board of Directors on March 5, 2020 and approved by the Company's stockholders on April 22, 2020 to, among other things reserved an additional 300,000 shares of common stock for issuance under the 2009 ESPP. As of September 27, 2020, approximately 362,335 shares of the Company's common stock were reserved for issuance under the 2009 ESPP.

Note 10 — Stock-Based Compensation

Stock-based compensation expense included in the Company's consolidated financial statements for the three and nine months ended September 27, 2020 and September 29, 2019 was as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 27, 2020	September 29, 2019	September 27, 2020	September 29, 2019
Cost of revenue	\$ 37	\$ 15	\$ 80	\$ 59
Research and development	51	521	73	1,708
Selling, general and administrative	170	212	448	723
Total	<u>\$ 258</u>	<u>\$ 748</u>	<u>\$ 601</u>	<u>\$ 2,490</u>

During the nine months ended September 27, 2020, the Company reversed stock-based compensation expense related to the cancellation of certain unvested performance based RSUs and restructuring-related terminations. During the second quarter of 2020, the Company issued fully vested RSUs in lieu of cash for variable compensation to certain employees.

No stock-based compensation was capitalized during any period presented above.

No stock options were granted during the three and nine months ended September 27, 2020 and September 29, 2019.

Stock-Based Compensation Award Activity

The following table summarizes the activity in the shares available for grant under the 2019 Plan during the nine months ended September 27, 2020 (in thousands):

	Shares Available for Grants 2020 Plan
Balance at December 29, 2019	272
Authorized shares	550
RSUs granted	(356)
PRSU's granted	(440)
Options cancelled	50
RSUs forfeited or expired	168
PRSUs forfeited or expired	43
Balance at September 27, 2020	<u>287</u>

Stock Options

The following table summarizes stock options outstanding and stock option activity under the 2009 Plan and the 2019 Plan, and the related weighted average exercise price, for the nine months ended September 27, 2020:

	Number of Shares (in thousands)	Weighted Average Exercise Price	Weighted Average Remaining Term (in years)	Aggregate Intrinsic Value (in thousands)
Balance outstanding at December 29, 2019	186	\$ 32.09	3.32	—
Forfeited or expired	(50)	—		
Exercised	—	—		
Balance outstanding at September 27, 2020	<u>136</u>	<u>\$ 29.37</u>	3.60	\$ —
Exercisable at September 27, 2020	<u>136</u>	<u>\$ 29.37</u>	3.60	\$ —
Vested and expected to vest at September 27, 2020	<u>136</u>	<u>\$ 29.37</u>	3.60	\$ —

There was no intrinsic value for the stock options based on the Company's closing stock price of \$3.12 per share as of September 27, 2020, which would have been received by the option holders had all option holders exercised their options as of that date.

There were no stock options exercises for the three and nine months ended September 27, 2020. The total intrinsic value of options exercised during the three and nine months ended September 27, 2020 was \$0. Total cash received from employees as a result of employee stock option exercises during the nine months ended September 29, 2019 was \$3,600. The Company settles employee stock option exercises with newly issued common shares. In connection with these exercises, there was no tax benefit realized by the Company due to the Company's current loss position.

Total stock-based compensation related to stock options was approximately \$1,000 and \$24,000 for the three months ended September 27, 2020 and September 29, 2019, respectively, and \$39,000 and \$73,000 for the nine months ended September 27, 2020 and September 29, 2019, respectively. As of September 27, 2020, the fair value of unvested stock options, net of forfeitures, was \$0.

Restricted Stock Units

The Company grants restricted stock units ("RSUs") and performance restricted stock units ("PRSUs") to employees and directors with various vesting terms. RSUs entitle the holder to receive, at no cost, one common share for each RSU as it vests. In general, the Company's policy is to withhold shares in settlement of employee tax withholding obligations upon the vesting of RSUs. The stock-based compensation related to RSUs was approximately \$231,000 and \$724,000 for the three months ended September 27, 2020 and September 29, 2019 and \$538,000 and \$2.4 million for the nine months ended September 27, 2020 and September 29, 2019, respectively. As of September 27, 2020 and September 29, 2019, there was approximately \$1.2 million and \$2.7 million, respectively, in unrecognized compensation expense related to RSUs. The remaining unrecognized stock-based compensation expense is expected to be recorded over a weighted average period of 0.59 year.

A summary of activity for the Company's RSUs for the nine months ended September 27, 2020 is as follows:

	RSUs & PRSUs Outstanding	
	Number of Shares	Weighted Average Grant Date Fair Value
	(in thousands)	
Nonvested at December 29, 2019	377	\$ 12.55
Granted	796	\$ 3.99
Vested	(137)	\$ 10.59
Forfeited	(210)	\$ —
Nonvested at September 27, 2020	<u>826</u>	<u>\$ 6.24</u>

2009 Employee Stock Purchase Plan

As of September 27, 2020, 362,335 shares remained available for issuance under the 2009 ESPP. For the three months ended September 27, 2020 and September 29, 2019, the Company recorded stock-based compensation expense related to the 2009 ESPP of approximately \$16,000 and \$0, respectively. For the nine months ended September 27, 2020 and September 29, 2019, the Company recorded stock-based compensation expense related to the 2009 ESPP of \$24,000 and \$60,000, respectively. The weighted average estimated fair value, as defined by the amended authoritative guidance, of rights issued pursuant to the Company's 2009 ESPP during the quarter ended September 27, 2020 and September 29, 2019, was \$1.83 and \$0, respectively, per right, respectively.

The fair value of rights issued pursuant to the Company's 2009 ESPP was estimated on the commencement date of each offering period using the following weighted average assumptions:

	Three Months Ended		Nine Months Ended	
	September 27, 2020	September 29, 2019	September 27, 2020	September 29, 2019
Expected term (months)	—	—	6.08	6.00
Risk-free interest rate	—	—	0.15%	2.40%
Volatility	—	—	88.35%	53.77%
Dividend yield	—	—	—	—

As of September 27, 2020, there was \$9,000 an unrecognized stock-based compensation expense relating to the Company's 2009 ESPP, which is expected to be recognized over a period of 1.7 months.

Note 11 — Income Taxes

The Company recorded a net income tax expense of approximately \$10,000 and \$70,000 for the three months ended September 27, 2020 and September 29, 2019, respectively. For the nine months ended September 27, 2020 and September 29, 2019 the Company recorded net income tax expense of \$1,000 and benefit of \$171,000 respectively. A majority of the income tax expense for the third quarter of 2020 and 2019 relates to the Company's foreign subsidiaries, which are cost-plus entities. A majority of the income tax expense for the nine months ended September 27, 2020 relates to foreign subsidiaries and benefit for the nine months ended September 29, 2019 relates to the deferred tax benefit arising from Intangible assets acquired from the acquisition of SensiML, which was offset by the income taxes from the Company's foreign subsidiaries, which are cost-plus entities.

The Company believes it is more likely than not that federal and state net deferred tax assets will not be fully realized. In assessing the realizability of deferred tax assets, the Company's management considers whether it is more likely than not that some portion or all of our deferred tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. A valuation allowance is recorded for loss carryforwards and other deferred tax assets where it is more likely than not that such deferred tax assets will not be realized. As of September 27, 2020, the Company continues to maintain a full valuation allowance against net federal, state and certain foreign deferred tax assets until there is sufficient evidence to support recoverability of the Company's deferred tax assets.

The Company had no unrecognized tax benefits as of September 27, 2020 and December 31, 2019, which would affect the Company's effective tax rate. The Company does not anticipate any material changes to its unrecognized tax benefits during the next 12 months.

Accrued interest and penalties related to unrecognized tax benefits are recognized as part of the income tax provision in the condensed consolidated statements of operations.

The Company is subject to U.S. federal income tax as well as income taxes in many U.S. states and foreign jurisdictions in which the Company operates. The U.S. tax years from 1999 forward remain effectively open to examination due to the carryover of unused net operating losses and tax credits.

Under the Tax Reform Act of 1986, the amount of and the benefit from net operating loss carryforwards and credit carryforwards may be impaired or limited in certain circumstances. Events which may restrict utilization of a company's net operating loss and credit carryforwards include, but are not limited to, certain ownership change limitations as defined in Internal Revenue Code Section 382 and similar state provisions. In the event the Company has had a change of ownership, utilization of carryforwards could be restricted to an annual limitation. The annual limitation may result in the expiration of net operating loss carryforwards and credit carryforwards before utilization.

The Company has not undertaken a study to determine if its net operating losses are limited. In the event the Company previously experienced an ownership change, or should experience an ownership change in the future, the amount of net operating losses and research and development credit carryovers available in any taxable year could be limited and may expire unutilized.

On March 27, 2020, the "Coronavirus Aid, Relief and Economic Security Act ("CARES ACT") was signed into law and GAAP requires recognition of the tax effects of new legislation during the reporting period that includes the enacted date. The CARES Act includes provisions relating to refundable payroll tax credits, deferment of the employer portion of certain payroll taxes, net operating loss carryback periods, alternative minimum tax credit refunds, modifications to the net interest deduction limitations and technical corrections to tax depreciation methods for qualified improvement property. The Company is currently analyzing the impact of these changes and therefore an estimate of the impact to income taxes is not yet available. The Company will continue to make and refine the calculations as additional analysis is completed.

On June 29, 2020, California's Legislature passed Assembly Bill 85 ("A.B.85"), which includes a three-year suspension of the use of net operating losses for medium and large business and a three-year cap on the use of business incentive tax credits to offset no more than \$5 million of tax per year. Generally, A.B.85 suspends the use of net operating losses for taxable years 2020, 2021 and 2022 for tax payers with taxable income of \$1 million or more and applies to any taxable year beginning on or after January 1, 2020, and before January 1, 2023. Both sections of A.B.85 will not have a material impact to the company in 2020 as per the annual forecast.

Note 12 — Information Concerning Product Lines, Geographic Information and Revenue Concentration

The Company identifies its business segment based on business activities, management responsibility and geographic location. For all periods presented, the Company operated in a single reportable business segment.

The following is a breakdown of revenue by product line (in thousands):

	Three Months Ended		Nine Months Ended	
	September 27, 2020	September 29, 2019	September 27, 2020	September 29, 2019
<i>Revenue by product line (1):</i>				
New products	\$ 639	\$ 1,015	\$ 1,945	\$ 2,413
Mature products	1,141	1,143	4,189	5,026
Total revenue	<u>\$ 1,780</u>	<u>\$ 2,158</u>	<u>\$ 6,134</u>	<u>\$ 7,439</u>

- (1) For all periods presented: New products include all products manufactured on 180 nanometer or smaller semiconductor processes, eFPGA IP license, Quick AI and SensiML AI software as a service (“SaaS”) revenues. Mature products include all products produced on semiconductor processes larger than 180 nanometer.

The following is a breakdown of revenue by shipment destination (in thousands):

	Three Months Ended		Nine Months Ended	
	September 27, 2020	September 29, 2019	September 27, 2020	September 29, 2019
<i>Revenue by geography:</i>				
Asia Pacific (1)	\$ 320	\$ 528	\$ 1,505	\$ 2,496
North America (2)	1,087	1,518	3,321	3,747
Europe	373	112	1,308	1,196
Total revenue	<u>\$ 1,780</u>	<u>\$ 2,158</u>	<u>\$ 6,134</u>	<u>\$ 7,439</u>

- (1) Asia Pacific includes revenue from Japan of \$271,000, or 15% of total revenue and \$510,000 or 24% of total revenue for the quarters ended September 27, 2020 and September 29, 2019, respectively. For the nine months ended September 27, 2020 and September 29, 2019, revenue from Japan was \$1.4 million, or 23% of total revenue, and \$1.3 million, or 17% of total revenue, respectively.
- (2) North America includes revenue from the United States of \$1.1 million, or 61% of total revenue, and \$1.4 million, or 67% of total revenue, for the three months ended September 27, 2020 and September 29, 2019, respectively. For the nine months ended September 27, 2020 and September 29, 2019 revenue from the United States was \$3.3 million, or 54% of total revenue, and \$3.6 million, or 49% of total revenue, respectively.

The following distributors and customers accounted for 10% or more of the Company's revenue for the periods presented:

	Three Months Ended		Nine Months Ended	
	September 27, 2020	September 29, 2019	September 27, 2020	September 29, 2019
Distributor "A"	22%	55%	29%	43%
Distributor "C"	20%	*	18%	10%
Distributor "E"	13%	11%	19%	*
Distributor "G"	*	*	*	12%
Customer "B"	10%	17%	12%	14%
Customer "F"	13%	11%	19%	*
Customer "I"	*	*	*	11%
Customer "J"	*	10%	*	*
Customer "K"	12%	*	*	*
Customer "N"	16%	14%	*	*

The following distributors and customers accounted for 10% or more of the Company's accounts receivable as of the dates presented:

	September 27, 2020	December 29, 2019
Distributor "A"	12%	20%
Distributor "C"	20%	23%
Distributor "E"	10%	12%
Distributor "J"	27%	31%

* Represents less than 10% of revenue and accounts receivable as of the date presented.

As of September 27, 2020, 6% of the Company's long-lived assets, including property and equipment and other assets, were located outside the United States.

Note 13 — Commitments and Contingencies

Commitments

The Company's manufacturing suppliers require the forecast of wafer starts several months in advance. The Company is required to take delivery of and pay for a portion of forecasted wafer volume. As of September 27, 2020, and December 29, 2019, the Company had \$141,000 and \$57,000, respectively, of outstanding commitments for the purchase of wafer and finished goods inventory.

The Company has purchase obligations with certain suppliers for the purchase of other goods and services entered into in the ordinary course of business. As of September 27, 2020, total outstanding purchase obligations for other goods and services were \$469,000, which are due within the next twelve months.

Note 14 — Litigation

From time to time, the Company may become involved in legal actions arising in the ordinary course of business including, but not limited to, intellectual property infringement and collection matters. Absolute assurance cannot be given that any such third party assertions will be resolved without costly litigation; in a manner that is not adverse to the Company's financial position, results of operations or cash flows; or without requiring royalty or other payments which may adversely impact gross profit. As of September 27, 2020, the Company was not involved in any litigation.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

The following Management's Discussion and Analysis of Financial Condition and Results of Operations, as well as information contained in "Risk Factors" in Part II, Item 1A and elsewhere in this Quarterly Report on Form 10-Q, contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We intend that these forward-looking statements be subject to the safe harbor created by those provisions. Forward-looking statements are generally written in the future tense and/or are preceded by words such as "will," "may," "should," "forecast," "could," "expect," "suggest," "believe," "anticipate," "intend," "plan," "future," "potential," "target," "seek," "continue," "if" or other similar words. Forward-looking statements include statements regarding our strategies as well as (1) our revenue levels, including the commercial success of our solutions and new products, (2) the conversion of our design opportunities into revenue, (3) our liquidity, (4) our gross profit and breakeven revenue level and factors that affect gross profit and the break-even revenue level, (5) our level of operating expenses, (6) our research and development efforts, (7) our partners and suppliers, (8) industry and market trends, (9) our manufacturing and product development strategies and (10) our competitive position.

The following discussion should be read in conjunction with the attached unaudited condensed consolidated financial statements and notes thereto, and with our audited consolidated financial statements and notes thereto for the fiscal year ended December 29, 2019, found in our Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on March 13, 2020. Although we believe that the assumptions underlying the forward-looking statements contained in this Quarterly Report are reasonable, any of the assumptions could be inaccurate, and therefore there can be no assurance that such statements will be accurate. The risks, uncertainties and assumptions referred to above that could cause our results to differ materially from the results expressed or implied by such forward-looking statements include, but are not limited to, those discussed under the heading "Risk Factors" in Part II, Item 1A hereto and the risks, uncertainties and assumptions discussed from time to time in our other public filings and public announcements. All forward-looking statements included in this document are based on information available to us as of the date hereof. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that the results or conditions described in such statements or our objectives and plans will be achieved. Furthermore, past performance in operations and share price is not necessarily indicative of future performance. We disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise that may arise after the date of this Quarterly Report on Form 10-Q.

Overview

We develop low power, multi-core semiconductor platforms and intellectual property ("IP") for artificial intelligence ("AI") voice and sensor processing. The solutions include an eFPGA for hardware acceleration and pre-processing, and heterogeneous multi-core System on Chip ("SoCs") that integrate eFPGA with other processors and peripherals. The SensiML Analytics Toolkit from wholly owned subsidiary, SensiML Corporation ("SensiML") completes the "full stack" end-to-end solution with accurate sensor algorithms using AI technology. The full range of platforms, software tools and eFPGA IP enables the practical and efficient adoption of AI, voice and sensor processing across mobile, wearable, hearable, consumer, industrial, edge and endpoint IoT applications.

Our solutions are created from our new silicon platforms including our EOS™, QuickAI™, SensiML Analytics Studio, ArcticLink® III, PolarPro®3, PolarPro II, PolarPro, and Eclipse II products (which together comprise our new product category). Our mature products include primarily FPGA families named pASIC®3 and QuickRAM® as well as programming hardware and design software. In addition to delivering our own semiconductor solutions, we have an IP business that licenses our eFPGA technology for use in other semiconductor companies SoCs. We began delivering our eFPGA IP product ArcticPro™ in 2017, which is included in the new product revenue category. Through our wholly owned subsidiary SensiML, we now have an AI software platform that includes Software-as-a-Service ("SaaS") subscriptions for development, per unit license fees when deployed in production, and proof-of-concept services, all of which are also included in the new product revenue category.

Our solutions typically fall into one of three categories: Sensor Processing, Display and Visual Enhancement, and Smart Connectivity. Our solutions include a unique combination of our silicon platforms, IP cores, software drivers, and in some cases, firmware and application software. All of our silicon platforms are standard devices and must be programmed to be effective in a system. Our IP that enables always-on context-aware sensor applications includes our Flexible Fusion Engine, our Sensor Manager and Communications Manager technologies as well as IP that (i) improves multimedia content, such as our Visual Enhancement Engine technology, and Display Power Optimizer technology; and (ii) implements commonly used mobile system interfaces, such as Low Voltage Differential Signalling, Mobile Industry Processor Interface, and Secure Digital Input Output.

We provide complete solutions by first architecting the solution jointly with our customer's or ecosystem partner's engineering group, selecting the appropriate solution platform and Proven System Blocks ("PSBs"), providing custom logic, integrating the logic, programming the device with the PSBs and/or firmware, providing software drivers or application software required for the customer's application, and supporting the customer on-site during integration, verification and testing. In many cases, we deliver software algorithms that have been optimized for use in a QuickLogic silicon platform.

Our core IP also includes the SensiML AI Toolkit that enables original equipment manufacturers ("OEMs") to develop AI software for a broad array of resource-constrained time-series sensor endpoint applications. These include a wide range of consumer and industrial sensing applications.

We also work with mobile processor manufacturers, sensor manufacturers, and voice recognition, sensor fusion and context awareness algorithm developers in the development of reference designs. Through reference designs that incorporate our solutions, we believe mobile processor manufacturers, sensor manufacturers, and sensor and voice algorithm companies can expand the available market for their respective products. Furthermore, should a solution developed for a processor manufacturer or sensor and/or sensor algorithm company be applicable to a set of common OEMs or Original Design Manufacturers ("ODMs"), we can amortize our Research and Development ("R&D") investment over that set of OEMs or ODMs. There may also be cases when platform providers that intend to use always-on voice recognition will dictate certain performance requirements for the combined software/hardware solution before the platform provider certifies and/or qualifies our product for use by end customers.

Our ArcticPro eFPGA IP is currently developed on 65nm, 40nm and 22nm process nodes. The licensable IP is generated by a compiler tool that enables licensees to create an eFPGA block that they can integrate into their SoC without significant involvement by us. We believe this flow enables a scalable support model for us.

In addition to working directly with our customers, we partner with other companies that are experts in certain technologies to develop additional IP, reference platforms and system software to provide application solutions, particularly in the area of hardware acceleration for AI-type applications.

In June 2020, we announced the QuickLogic Open Reconfigurable Computing ("QORC") Initiative, developed in conjunction with Google and Antmicro. The QORC initiative encompasses QuickLogic device support via multiple open source tools, including: the SymbiFlow open source FPGA toolchain, the Renode open source simulation framework for rapid prototyping, development and testing of multi-node systems, the Zephyr Real-Time Operating System (RTOS), and an open source development kit.

We also work with mobile processor and communications semiconductor device manufacturers and companies that supply sensor, algorithms and applications. The depth of these relationships vary depending on the partner and the dynamics of the end market being targeted, but they are typically a co-marketing relationship that includes joint account calls, promotional activities and/or engineering collaboration and developments, such as reference designs. For our sensor processing solutions, we collaborate with sensor manufacturers to ensure interface compatibility. We also collaborate with sensor and voice/audio software companies, helping them optimize their software technology on our silicon platforms in terms of performance, power consumption and user experience.

For our eFPGA strategy, we work with semiconductor manufacturing partners to ensure our eFPGA IP is proven for a given foundry and process node before it is licensed to an SoC company.

In order to grow our revenue from its current level, we depend upon increased revenue from our new products including existing new product platforms, eFPGA IP and platforms currently in development. We expect our business growth to be driven mainly by our silicon solutions, eFPGA IP, open source tools, and SensiML AI Software. Therefore, our revenue growth needs to be strong enough to enable us to sustain profitability while we continue to invest in the development, sales and marketing of our new solution platforms, IP and software.

During the third quarter of 2020, we generated total revenue of \$1.8 million, which represents a decrease of 19% compared to the second quarter of 2020 and 18% compared to the third quarter of 2019. Our new product revenue in the third quarter was \$639,000, which represents a decrease of 22% from the prior quarter and 37% from the third quarter of 2019. Our mature product revenue was \$1.1 million in the third quarter of 2020, which represents a decrease of 17% from the prior quarter and flat compared to the third quarter of 2019. We expect our mature product revenue to continue to fluctuate over time.

[Table of Contents](#)

We devote substantially all of our development, sales and marketing efforts to our new sensor processing solutions using our EOSSM S3 platforms, derivative products based on software-driven features, development of additional new products and solution platforms, our new eFPGA IP licensing and QuickAI initiatives. Overall, we reported a net loss of \$2.1 million for the third quarter of 2020, a decrease of 31% compared with the prior quarter and a decrease of 52% compared with the third quarter of 2019.

COVID-19 Response

The COVID-19 pandemic and its potential effects on the Company's business in its fiscal 2020 and beyond remain uncertain. It is expected that there will be further restrictions by the governmental authorities as a result of an impending surge in COVID-19 cases during the winter of 2020. These restrictions and other impacts from COVID-19 could cause further disruptions or restrictions on the Company's ability to source, manufacture or distribute its products, including temporary disruptions to the facilities of its contract manufacturers in China, Taiwan, Philippines and Singapore, or the facilities of its suppliers and their contract manufacturers globally. Additionally, multiple countries have imposed and may further impose restrictions on business operations and movement of people and products to limit the spread of COVID-19. This might cause delays in production or delivery of components or raw materials that are part of the Company's global supply chain. If COVID-19 cases surge and the Company experiences more pronounced disruptions in its operations, the Company may experience constrained supply or curtailed demand that may materially adversely impact its business and results of operations.

Our Employees and customers

Our top priority during the ongoing COVID-19 pandemic remains the health and safety of our employees and their families, as well as our customers. As global governments institute restrictions on commercial operations, we are working to ensure our compliance while also maintaining business continuity for operations.

Most of our personnel continue to work from home except few personnel, who are required for minimum operations. We only allow employees in our facilities who are essential to the facilities' operations under best practices guidelines on maintaining physical distancing, utilizing enhanced cleaning protocols and usage of personal protective equipment.

We are committed to our customers to enable the support they need to continue providing vital services and tools. Our global offices remain operational to meet customer needs during the pandemic in compliance with the orders and restrictions imposed by local authorities in each of our locations, and we are working with our customers to meet their specific shipment needs. While the pandemic has created delays on the inbound supply chain at our partners and our own facilities and both inbound and outbound logistical challenges, we have been able to identify alternative solutions such that none of the issues have had a material impact on our ability to fulfil demand.

Liquidity

In anticipation of further COVID-19 related disruptions to our business, we have undertaken a comprehensive review of our spending plans and expect to reduce discretionary spending in future periods while maintaining an ongoing focus on key initiatives. Our balance sheet is well positioned and had \$24.7 million of cash, cash equivalents and restricted cash as of September 27, 2020, including the draw-down of \$15.0 million from revolving credit facility maturing in September 2021 and net proceeds of \$8.1 million received from the equity offering, after deducting the commissions and other stock issuance expenses.

On May 6, 2020, we entered into a loan agreement with Heritage Bank for a loan of \$1.2 million pursuant to the Paycheck Protection Program ("PPP Loan") under the Coronavirus Aid, Relief, and Economic Security Act enacted on March 27, 2020 ("CARES Act"). On June 5, 2020, the President of the United States of America signed into law the Paycheck Protection Flexibility Act ("PPFPA") to address many concerns expressed by the small business community around the Paycheck Protection Program. PPFPA among other changes (i) reduced the amount of the loan required to be spent on payroll from 75% to 60%, thus increasing the amount of funds available for other expenses from 25% to 40%, (ii) extended the period to spend the loans to 24 weeks from 8 weeks, (iii) amended the June 30 deadline to rehire workers to December 31, 2020, (iv) eased rehire requirements, and (v) extended the repayment term of the PPP Loan from 2 years to 5 years. For the loans disbursed before June 5, 2020, PPFPA provides the option to opt for 24 weeks for spending the loan instead of 8 weeks. The Company has opted for 24 weeks to spend the PPP Loan. As of September 27, 2020, the Company fully utilized the loan proceeds in compliance with PPFPA guidelines. The Company expects to apply for the full loan forgiveness in the fourth quarter of 2020. However, Forgiveness of this loan will be recognized if/when legal release is received.

The extent of the impact of COVID-19 on our operational and financial performance will depend on future developments, including the duration and spread of the pandemic, restrictions on travel, transportation and other containment measures, our compliance with these measures and the impact on our employees, customers, contractors and supply chain, all of which are uncertain and cannot be predicted.

[Table of Contents](#)

The COVID-19 pandemic and its potential effects on the Company's business in its fiscal 2020 remain dynamic, and the broader implications for its business and results of operations remain uncertain. These implications could include further disruptions or restrictions on the Company's ability to source, manufacture or distribute its products, including temporary disruptions to the facilities of its contract manufacturers in China, Taiwan, Philippines and Singapore, or the facilities of its suppliers and their contract manufacturers globally. Additionally, multiple countries have imposed and may further impose restrictions on business operations and movement of people and products to limit the spread of COVID-19. Delays in production or delivery of components or raw materials that are part of the Company's global

supply chain due to restrictions imposed to limit the spread of COVID-19 could delay or inhibit its ability to obtain the supply of components and finished goods. If COVID-19 becomes more prevalent in the locations where the Company, its customers or suppliers conduct business, or the Company experiences more pronounced disruptions in its operations, the Company may experience constrained supply or curtailed demand that may materially adversely impact its business and results of operations. In addition, any other widespread health crisis that could adversely affect global and regional economies, financial markets and overall demand environment for the Company's products could have a material adverse effect on the Company's business, cash flows or results of operations.

Critical Accounting Estimates

The methods, estimates and judgments we use in applying our most critical accounting policies have a significant impact on the results we report in our consolidated financial statements. The SEC has defined critical accounting policies as those that are most important to the portrayal of our financial condition and results of operations and require us to make difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on this definition, our critical policies include revenue recognition, valuation of inventories, including identification of excess quantities and product obsolescence, valuation of investments, valuation of long-lived assets, valuation of goodwill, capitalized internal-use software and related amortizable lives and intangibles related to the acquisition of SensiML, including the estimated useful lives of acquired intangible assets, measurement of stock-based compensation and estimation of accrued liabilities. We believe that we apply judgments and estimates in a consistent manner and that this consistent application results in consolidated financial statements and accompanying notes that fairly represent all periods presented. However, any factual errors or errors in these judgments and estimates may have a material impact on our financial statements. During the three and nine months ended September 27, 2020, there were no changes in our critical accounting policies from our disclosure in our Annual Report on Form 10-K for the fiscal year ended December 29, 2019, filed with the SEC on March 13, 2020, except for the new accounting standards adopted in the first quarter of 2020 as described in Note 2 to the condensed consolidated financial statements as of and for the three and nine months ended September 27, 2020. For a discussion of critical accounting policies and estimates, please see Item 7 in our Annual Report on Form 10-K for the fiscal year ended December 29, 2019, filed with the SEC on March 13, 2020. See also Note 2 to the Unaudited Condensed Consolidated Financial Statements as of and for the three and nine months ended September 27, 2020 for the details of the newly adopted accounting standards.

23

[Table of Contents](#)

Results of Operations

The following table sets forth the percentage of revenue for certain items in our condensed consolidated statements of operations for the periods indicated:

	Three Months Ended		Nine Months Ended	
	September 27, 2020	September 29, 2019	September 27, 2020	September 29, 2019
Revenue	100%	100%	100%	100%
Cost of revenue	48%	52%	50%	46%
Gross profit	52%	48%	50%	54%
Operating expenses:				
Research and development	78%	146%	88%	129%
Selling, general and administrative	83%	97%	82%	92%
Restructuring (1)	6%	—%	10%	—%
Loss from operations	(115)%	(195)%	(130)%	(167)%
Interest expense	(2)%	(3)%	(5)%	(4)%
Interest income and other (expense), net	2%	3%	2%	2%
Loss before income taxes	(115)%	(195)%	(133)%	(169)%
Provision for (benefit from) income taxes (1)	1%	3%	—%	(2)%
Net loss	(116)%	(198)%	(133)%	(167)%

(1) Insignificant percentages are rounded to zero percentage (-%) for disclosure

Three Months Ended September 27, 2020 Compared to Three Months Ended September 29, 2019

Revenue

The table below sets forth the changes in revenue for the three months ended September 27, 2020, as compared to the three months ended September 29, 2019 (in thousands, except percentage data):

	Three Months Ended				Change	
	September 27, 2020		September 29, 2019		Amount	Percentage
	Amount	% of Total Revenues	Amount	% of Total Revenues		
<i>Revenue by product line (1):</i>						
New products	\$ 639	36%	\$ 1,015	47%	\$ (376)	(37)%
Mature products	1,141	64%	1,143	53%	(2)	(0)%
Total revenue	\$ 1,780	100%	\$ 2,158	100%	\$ (378)	(18)%

(1) For all periods presented: New products include all products manufactured on 180 nanometer or smaller semiconductor processes, eFPGA IP license, QuickAI and SensiML AI SaaS revenues. Mature products include all products produced on semiconductor processes larger than 180 nanometer.

The net decrease of \$376,000 in the revenue of new products was primarily due to a decrease of connectivity product revenue, which was partially offset by increase in other new product revenue. Mature product revenue was flat compared to the third quarter of 2019.

24

[Table of Contents](#)

Gross Profit

The table below sets forth the changes in gross profit for the three months ended September 27, 2020 as compared to the three months ended September 29, 2019 (in thousands, except percentage data):

Three Months Ended

	September 27, 2020		September 29, 2019		Change	
	Amount	% of Total Revenues	Amount	% of Total Revenues	Amount	Percentage
Revenue	\$ 1,780	100%	\$ 2,158	100%	\$ (378)	(18)%
Cost of revenue	857	48%	1,117	52%	(260)	(23)%
Gross profit	\$ 923	52%	\$ 1,041	48%	\$ (118)	(11)%

In the third quarter of 2020, gross profit was lower by \$118,000 or 11% as compared to the same quarter in the prior year. This was primarily due to the product mix shipped during the quarter. The sale of previously reserved inventory was \$26,000 and \$31,000 in the third quarters of 2020 and 2019, respectively.

Our semiconductor products have historically had long product life cycles and obsolescence has not been a significant factor in the valuation of inventories. However, as we continue to pursue opportunities in the mobile market and develop new solutions and products, our product life cycle will be shorter and the risk of obsolescence will increase. In general, our standard manufacturing lead times are longer than the binding forecasts we receive from customers.

Operating Expenses

The table below sets forth the changes in operating expenses for the three months ended September 27, 2020, as compared to the three months ended September 29, 2019 (in thousands, except percentage data):

	Three Months Ended				Change	
	September 27, 2020		September 29, 2019		Amount	Percentage
	Amount	% of Total Revenues	Amount	% of Total Revenues		
R&D expense	\$ 1,380	78%	\$ 3,139	146%	\$ (1,759)	(56)%
SG&A expense	1,478	83%	2,095	97%	(617)	(29)%
Restructuring expense	111	6%	—	0%	111	100%
Total operating expenses	\$ 2,969	167%	\$ 5,234	243%	\$ (2,265)	(43)%

Research and Development

Our R&D expenses consist primarily of personnel, overhead and other costs associated with System on Chip (SoC) and software development, programmable logic design, AI and eFPGA development. The \$1.8 million decrease in R&D expenses in the third quarter of 2020, as compared to the third quarter of 2019, was primarily attributable to the lower compensation costs, including lower stock based compensation due to the restructuring plan implemented in January 2020. Lower outside services costs and lower travel expenses due to COVID-19 also contributed to the decrease of R&D expenses.

Selling, General and Administrative

Our selling, general and administrative (“SG&A”) expenses consist primarily of personnel and related overhead costs for sales, marketing, finance, administration, human resources and general management. The \$617,000 decrease in SG&A expenses in the third quarter of 2020, as compared to the third quarter of 2019 was primarily attributable to lower compensation costs, including stock-based compensation, due to the restructuring plan implemented in January 2020. Further, lower outside services costs and lower facilities costs due to cost reduction measures and lower travel costs due to COVID-19 also contributed to the decrease of SG&A expenses.

Restructuring

In January 2020, the Company implemented a restructuring plan to lower annual operating expenses. The restructuring plan was approved by the Company’s Board of Directors on January 24, 2020. Pursuant to the restructuring plan, the Company recorded \$624,000 of restructuring charges during the nine months of fiscal year 2020, including \$111,000 in the third quarter, consisting primarily of employee severance related costs and facilities costs. See Note 1 to the Condensed Consolidated Financial Statements for details.

[Table of Contents](#)

Interest Expense and Interest Income and Other Expense, Net

The table below sets forth the changes in interest expense and interest income and other (expense), net for the three months ended September 27, 2020 as compared to the three months ended September 29, 2019 (in thousands, except percentage data):

	Three Months Ended		Change	
	September 27, 2020	September 29, 2019	Amount	Percentage
Interest expense	\$ (36)	\$ (63)	\$ 27	(43)%
Interest income and other expense, net	27	55	(28)	(51)%
	\$ (9)	\$ (8)	\$ (1)	13%

Interest expense relates primarily to the Company's line of credit facility and the PPP Loan. Interest income and other expenses, net, relates to the interest earned on our money market accounts and foreign exchange gain or losses recorded.

Provision for Income Taxes

The table below sets forth the changes in the provisions for income tax for the three months ended September 27, 2020 as compared to the three months ended September 29, 2019 (in thousands, except percentage data):

	Three Months Ended		Change	
	September 27, 2020	September 29, 2019	Amount	Percentage
Provision for income taxes	\$ 10	\$ 70	\$ (60)	(86)%

The majority of the income tax expense for the quarter ended September 27, 2020 and September 29, 2019 relates to the Company's foreign subsidiaries, which are cost-plus entities.

The Company is subject to U.S. federal income tax as well as income taxes in many U.S. states and foreign jurisdictions in which the Company

operates. The U.S. tax years from 1999 forward remain effectively open to examination due to the carryover of unused net operating losses and tax credits.

Nine Months Ended September 27, 2020 and September 29, 2019

Revenue

The table below sets forth the changes in revenue for the nine months ended September 27, 2020, as compared to the nine months ended September 29, 2019 (in thousands, except percentage data):

	Nine Months Ended				Change	
	September 27, 2020		September 29, 2019		Amount	Percentage
	Amount	% of Total Revenues	Amount	% of Total Revenues		
Revenue by product line (1):						
New products	\$ 1,945	32%	\$ 2,413	32%	\$ (468)	(19)%
Mature products	4,189	68%	5,026	68%	(837)	(17)%
Total revenue	<u>\$ 6,134</u>	<u>100%</u>	<u>\$ 7,439</u>	<u>100%</u>	<u>\$ (1,305)</u>	<u>(18)%</u>

(1) For all periods presented: New products include all products manufactured on 180 nanometer or smaller semiconductor processes, eFPGA IP license, QuickAI and SensiML AI SaaS revenues. Mature products include all products produced on semiconductor processes larger than 180 nanometers.

The \$468,000 decrease in the revenue of new products was primarily due to decreased shipment of connectivity and display products, which was partially offset by the increase in EOS S3 revenue recognized in the first nine months of 2020. The \$837,000 decrease in the revenue of mature products was primarily due to decreased orders from our customers in the aerospace, military and industrial sectors.

26

[Table of Contents](#)

Gross Profit

The table below sets forth the changes in gross profit for the nine months ended September 27, 2020, as compared to the nine months ended September 29, 2019 (in thousands, except percentage data):

	Nine Months Ended				Change	
	September 27, 2020		September 29, 2019		Amount	Percentage
	Amount	% of Total Revenues	Amount	% of Total Revenues		
Revenue	\$ 6,134	100%	\$ 7,439	100%	\$ (1,305)	(18)%
Cost of revenue	3,092	50%	3,397	46%	(305)	(9)%
Gross profit	<u>\$ 3,042</u>	<u>50%</u>	<u>\$ 4,042</u>	<u>54%</u>	<u>\$ (1,000)</u>	<u>(25)%</u>

The \$1.0 million or 25% decrease in gross profit was primarily due to product mix changes, lower shipments of high margin mature products and additional test costs to support the higher volume of products shipped to our primary smartphone customer in the first nine months of 2020 compared to the first nine months of 2019. The sale of previously reserved inventory was \$59,000 and \$95,000 in the first nine months of 2020 and 2019, respectively.

Operating Expenses

The table below sets forth the changes in operating expenses for the nine months ended September 27, 2020, as compared to the nine months ended September 29, 2019 (in thousands, except percentage data):

	Nine Months Ended				Change	
	September 27, 2020		September 29, 2019		Amount	Percentage
	Amount	% of Total Revenues	Amount	% of Total Revenues		
R&D expense	\$ 5,399	88%	\$ 9,596	129%	\$ (4,197)	(44)%
SG&A expense	5,022	82%	6,881	93%	(1,859)	(27)%
Restructuring expenses	624	10%	—	0%	624	100%
Total operating expenses	<u>\$ 11,045</u>	<u>180%</u>	<u>\$ 16,477</u>	<u>222%</u>	<u>\$ (5,432)</u>	<u>(33)%</u>

Research and Development

Our R&D expenses consist primarily of personnel, overhead and other costs associated with, sensor processing and algorithm development, programmable logic design, SoC software and eFPGA development. The \$4.2 million decrease in R&D expenses in the first nine months of 2020, as compared to the first nine months of 2019 was primarily attributable to the restructuring plan implemented in January 2020, which resulted in lower compensation related costs, lower consulting and outside services expenses. Cancellation of performance based restricted stock units contributed to lower stock based compensation. Decrease in travel expenses also contributed to lower R&D expenses.

Selling, General and Administrative

Our SG&A expenses consist primarily of personnel and related overhead costs for sales, marketing, finance, administration, human resources and general management. The \$1.9 million decrease in SG&A expenses in the first nine months of 2020, as compared to the first nine months of 2019, was primarily due to a decrease of compensation-related costs, including stock-based compensation expenses, lower outside services expenses and facility costs due to restructuring plan implemented in January 2020. Decrease in travel expenses also contributed to lower SG&A expenses.

Interest Expense and Interest Income and Other Expense, Net

The table below sets forth the changes in interest expense and interest income and other (expense), net for the nine months ended September 27, 2020 as compared to the nine months ended September 29, 2019 (in thousands, except percentage data):

	Nine Months Ended		Change
	September 27,	September 29,	

	2020	2019	Amount	Percentage
Interest expense	\$ (299)	\$ (270)	\$ (29)	11%
Interest income and other expense, net	94	153	(59)	(39)%
	<u>\$ (205)</u>	<u>\$ (117)</u>	<u>\$ (88)</u>	<u>75%</u>

[Table of Contents](#)

Interest expense relates primarily to the Company's line of credit facility and the PPP Loan. Interest income relates to the interest earned on our money market account and foreign exchange gains or losses recorded.

Provision for Income Taxes

The table below sets forth the changes in the income tax provisions for the nine months ended September 27, 2020 as compared to the nine months ended September 29, 2019 (in thousands, except percentage data):

	Nine Months Ended		Change	
	September 27, 2020	September 29, 2019	Amount	Percentage
Provision for (benefit from) income taxes	\$ 1	\$ (171)	\$ (172)	101%

Income tax expense for the nine months ended September 27, 2020 relates to the Company's foreign subsidiaries, which are cost-plus entities. A majority of the income tax benefit for the nine months ended September 29, 2019 relates to the deferred tax benefit arising from Intangible assets acquired from the acquisition of SensiML.

As of September 27, 2020, our ability to utilize our income tax loss carryforwards in future periods is uncertain, and accordingly, we recorded a full valuation allowance against the related U.S. tax provision. We will continue to assess the realizability of deferred tax assets in future periods.

Liquidity and Capital Resources

We have financed our operating losses and capital investments through sales of common stock, finance leases, a revolving line of credit and cash flows from operations. As of September 27, 2020, the Company's principal sources of liquidity consisted of cash, cash equivalents and restricted cash of \$24.7 million, including \$15.0 million line of credit with Heritage Bank. We repaid the \$15.0 million outstanding under our Revolving Facility on September 28, 2020.

On June 22, 2020, the Company closed an underwritten public offering of 2.5 million shares of common stock, \$0.001 par value per share at a price of \$3.50 per share. The Company received a total gross proceeds from the offering of approximately \$9.3 million, including \$0.5 million received from the overallotment under the terms of the underwriting agreement. Under the terms of the underwriting agreement, the Company granted the underwriter a 30-day option to purchase up to an additional 375,000 shares of common stock to cover overallotments. On July 21, 2020, the underwriter's partially exercised the option to purchase 141,733 additional shares of common stock in connection with the offering, resulting in additional net proceeds to the Company of approximately \$0.5. The Company incurred a total of approximately \$1.2 million for underwriting discounts and other stock issuance costs. Total net proceeds received from this offering was \$8.1 million after deducting underwriting discounts and other stock issuance costs. See Note 8 to the Unaudited Condensed Consolidated Financial Statements for the details.

On June 5, 2020, the President of the United States of America signed into law the PPPFA, to address many concerns expressed by the small business community around the Paycheck Protection Program. See Note 6 to the Unaudited Condensed Consolidated Financial Statements and COVID-19 Response above for more details. For the loans disbursed before June 5, 2020, PPPFA provides the option to opt for 24 weeks for spending the loan instead of 8 weeks. The Company has opted for 24 weeks to spend the PPP Loan.

On May 6, 2020, we entered into a loan agreement with Heritage Bank for a loan of \$1.2 million pursuant to the Paycheck Protection Program under the CARES Act enacted on March 27, 2020. The principal and interest of the PPP Loan are repayable in 18 monthly equal installments of \$67,065.21 each starting in December 2020. Interest accrued in the first six months is included in the monthly installments. Installments must be paid by the fifth calendar day of each month. The loan amount can be fully or partially forgiven if the funds are used as per revised guidelines under the PPPFA. As of September 27, 2020, the Company fully utilized the loan funds complying PPPFA guidelines. The Company expects to apply for the loan forgiveness in the fourth quarter of 2020. Forgiveness of this loan will be recognized if/when legal release is received.

On November 6, 2019, the Company entered into a First Amendment to the Amended and Restated Loan Agreement ("First Amendment") with Heritage Bank to extend the maturity date of the Revolving Facility for one year through September 28, 2021. Under this First Amendment the Revolving Facility advances shall bear interest, on the outstanding daily balance thereof, at a rate per annum equal to the greater of (i) one half of one percentage point (0.50%) above the Prime Rate, or (ii) five and one half of one percentage points (5.50%). We were in compliance with all loan covenants under the Amended and Restated Loan Agreement as of the end of the current reporting period.

[Table of Contents](#)

On June 21, 2019, we completed an underwritten public offering of 1.3 million shares of common stock, at a price of \$7.00 per share, which included 171,429 shares issued pursuant to the underwriters' full exercise of their over-allotment option. We received net proceeds from the offering of approximately \$8.0 million, net of underwriter's commission and other offering expenses. See Note 8 to the Unaudited Condensed Consolidated Financial Statements for the details.

On December 21, 2018, we entered into an Amended and Restated Loan and Security Agreement ("Amended and Restated Loan Agreement") with Heritage Bank to replace in its entirety the Loan and Security Agreement entered into with Heritage Bank on September 28, 2018. The Amended and Restated Loan Agreement increased the Revolving Facility from \$9,000,000 to \$15,000,000. The Amended and Restated Loan Agreement requires us to maintain at least \$3,000,000 in unrestricted cash at Heritage Bank. As of September 27, 2020, we had \$15.0 million of outstanding revolving line of credit with an interest rate of 5.5%.

We believe that our existing cash, cash equivalents and restricted cash, together with available financial resources from the revolving facility with Heritage Bank, and the funds raised from our equity offering that closed in June and July 2020 will be sufficient to fund our operations and capital expenditure and provide adequate working capital for the next twelve months. The PPP Loan obtained in May 2020, and the proceeds from our equity offering in June and July 2020 helped us to remain in compliance with our debt covenants. See Note 6 to the Unaudited Condensed Consolidated Financial Statements for details.

Over the longer term, we anticipate that the generation of sales from our new and mature product offerings, existing cash and cash equivalents, together with financial resources from our Revolving Facility with Heritage Bank and our ability to raise additional capital in the public capital markets will be sufficient to satisfy our operations and capital expenditures. Our Revolving Facility with Heritage Bank matures in September 2021, which we plan to renew or find an alternative lender

prior to the maturity date. Further, any violations of debt covenants may restrict our access to any additional cash draws from the revolving line of credit, and may require our immediate repayment of the outstanding debt amounts. We believe that we will be able to either renew the Revolving Facility or obtain alternative financing on the acceptable terms. However, we cannot provide any assurance that PPP Loan will be forgiven or we cannot provide any assurance that we will be able to raise additional capital, if required, or that such capital will be available on terms acceptable to us. Our inability to generate sufficient sales from our new product offerings and/or raise additional capital if needed could have a material adverse effect on our operations and financial condition, including our ability to maintain compliance with our lender's financial covenants.

As of September 27, 2020, most of our cash, cash equivalents and restricted cash were invested in the money market account at Heritage Bank. As of September 27, 2020, our interest-bearing debt consisted of \$620,000 outstanding under finance leases, \$1.2 million of PPP loan and \$15.0 million outstanding under our Revolving Facility. We repaid the \$15.0 million outstanding under our Revolving Facility on September 28, 2020. See Note 1 and 6 to the Unaudited Consolidated Financial Statements for more details.

Cash balances held at our foreign subsidiaries were approximately \$330,000 and \$548,000 as of September 27, 2020 and December 29, 2019, respectively. Earnings from our foreign subsidiaries are currently deemed to be indefinitely reinvested. We do not expect such reinvestment to affect our liquidity and capital resources, and we continually evaluate our liquidity needs and ability to meet global cash requirements as a part of our overall capital deployment strategy. Factors that affect our global capital deployment strategy include anticipated cash flows, the ability to repatriate cash in a tax-efficient manner, funding requirements for operations and investment activities, acquisitions and divestitures and capital market conditions.

In summary, our cash flows were as follows (in thousands):

	Nine Months Ended	
	September 27, 2020	September 29, 2019
Net cash used in operating activities	\$ (5,145)	\$ (8,750)
Net cash used in investing activities	(762)	(579)
Net cash provided by financing activities	9,044	7,688

Net cash used in operating activities

For the nine months ended September 27, 2020, net cash used in operating activities was \$5.1 million, which was primarily due to the net loss of \$8.2 million, adjusted for non-cash charges of \$1.3 million. Non-cash charges consisted primarily of \$601,000 of stock-based compensation and depreciation and amortization expenses of \$644,000. Cash inflows from changes in operating assets and liabilities were \$1.7 million, primarily due to decrease of accounts receivable due to lower sales and better collections, decrease of inventory due to shipping existing inventory, decrease of prepaid assets due to amortizations and VAT receipts and increase of trade payable due to timing of payments.

[Table of Contents](#)

For the nine months ended September 29, 2019, net cash used in operating activities was \$8.8 million, which was primarily due to the net loss of \$12.4 million, adjusted for non-cash charges of \$3.2 million. Non-cash charges consisted primarily of stock-based compensation of \$2.5 million. Other non-cash charges were depreciation, amortization of property, equipment, intangible assets, and right of use lease assets, and a write-down of inventory. Cash inflows from changes in operating assets and liabilities were \$1.6 million, which were offset by cash outflows of \$1.2 million.

Net cash used in investing activities

For the nine months ended September 27, 2020, cash used in investing activities was \$762,000, which was primarily attributable to the capitalized internal-use software and capital expenditure relating to leasehold improvements and computer equipment.

For the nine months ended September 29, 2019, cash used in investing activities was \$579,000, which was primarily attributable to capital expenditure relating to leasehold improvements and computer equipment at the new office premises.

Net cash provided by financing activities

For the nine months ended September 27, 2020, cash provided by financing activities was \$9.0 million, which was primarily derived from the net proceeds of \$8.1 million from the stock issuance of 2.5 million shares of common stock in June 2020 and overallotment of 141,733 shares to underwriters in July 2020, proceeds from the PPP Loan of \$1.2 million, partially offset by scheduled repayments of \$179,000 for finance lease obligations.

For the nine months ended September 29, 2019, cash provided by financing activities was \$7.7 million, primarily attributable to the net proceeds of \$8.0 million from the issuance of 18.4 million shares of common stock issued in June 2019, and net proceeds from the issuance of common stock under our equity plans. These inflows were partially offset by scheduled repayments of finance lease obligations and tax payments related to net settlement of stock awards

Contractual Obligations and Commercial Commitments

The following table summarizes our contractual obligations and commercial commitments as of September 27, 2020 including the PPP Loan received in May 2020 and the effect such obligations and commitments are expected to have on our liquidity and cash flows in future fiscal periods (in thousands):

	Payments Due by Period			
	Total	Less than 1 Year	1-3 Years	4-5 Years
<i>Contractual obligations:</i>				
Operating leases	\$ 1,535	\$ 498	\$ 825	\$ 212
Finance and software lease obligations	619	282	337	—
Wafer purchases (1)	141	141	—	—
Other purchase commitments	469	469	—	—
Total contractual obligations	\$ 2,764	\$ 1,390	\$ 1,162	\$ 212
<i>Other commercial commitments:</i>				
Revolving line of credit	15,000	15,000	—	—
PPP loan	1,192	660	532	—
Total commercial commitments	16,192	15,660	532	—
Total contractual and commercial obligations	\$ 18,956	\$ 17,050	\$ 1,694	\$ 212

- (1) Certain of our wafer manufacturers require us to forecast wafer starts several months in advance. We are committed to accept the delivery of and pay for a portion of forecasted wafer volume.

Concentration of Suppliers

We depend on a limited number of contract manufacturers, subcontractors, and suppliers for wafer fabrication, assembly, programming and testing, and for the supply of programming equipment. These services are typically provided by one supplier for each of our devices. We generally purchase these single or limited source services through standard purchase orders. Because we rely on independent subcontractors to perform these services, we cannot directly control product delivery schedules, costs or quality levels. Our future success also depends on the financial viability of our independent subcontractors. The decision not to provide these services to us or the inability to supply these services to us, such as in the case of a natural or financial disaster, would have a significant impact on our business. In addition, these subcontracted manufacturers produce products for other companies and we must place orders up to several months in advance of expected delivery. Increased demand from other companies could result in these subcontract manufacturers allocating available capacity to customers that are larger or have long-term supply contracts in place and we may be unable to obtain adequate foundry and other capacity at acceptable prices, or we may experience delays or interruption in supply. As a result, we have only a limited ability to react to fluctuations in demand for our products, which could cause us to have an excess or a shortage of inventories of a particular product. Additionally, volatility of economic, market, social and political conditions in countries where these suppliers operate may be unpredictable and could result in a reduction in product revenue or increase our cost of revenue and could adversely affect our business, financial condition and results of operations.

30

[Table of Contents](#)

Off-Balance Sheet Arrangements

We do not maintain any off-balance sheet partnerships, arrangements or other relationships with unconsolidated entities or others, often referred to as structured finance or special purpose entities, which are established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

Recently Issued Accounting Pronouncements

See Note 2 to the Unaudited Condensed Consolidated Financial Statements for a description of recent accounting pronouncements, including the respective dates of adoption and expected effects on the results of our operations and financial condition.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

Our exposure to market rate risk for changes in interest rates relates primarily to our investment portfolio and variable rate debt. We do not use derivative financial instruments to manage our interest rate risk. We are averse to principal loss and ensure the safety and preservation of invested funds by limiting default, market risk and reinvestment risk. Our investment portfolio is generally comprised of investments that meet high credit quality standards and have active secondary and resale markets. Since these securities are subject to interest rate risk, they could decline in value if interest rates fluctuate or if the liquidity of the investment portfolio were to change. Due to the short duration and conservative nature of our investment portfolio, we do not anticipate any material loss with respect to our investment portfolio. A 10% move in interest rates as of the end of the first quarter of 2020 would have had an immaterial effect on our financial position, results of operations and cash flows.

Foreign Currency Exchange Rate Risk

All of our sales and costs of manufacturing are transacted in U.S. dollars. We conduct a portion of our research and development activities in India and have sales and marketing offices in several locations outside of the United States. We use the U.S. dollar as our functional currency. Most of the costs incurred at these international locations are in local currency. If these local currencies strengthen against the U.S. dollar, our payroll and other local expenses will be higher than we currently anticipate. Since our sales are transacted in U.S. dollars, this negative impact on expenses would not be offset by any positive effect on revenue. Operating expenses denominated in foreign currencies were approximately 18% and 19% of total operating expenses for the nine months of 2020 and 2019, respectively. A currency exchange rate fluctuation of 10% would have caused our operating expenses to change by approximately \$203,000 in the nine months of 2020.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Based on management's evaluation as of September 27, 2020, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) were effective at the reasonable assurance level to ensure that the information required to be disclosed by us in this Quarterly Report on Form 10-Q was (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and regulations and (ii) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls over financial reporting will prevent all errors and frauds. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

31

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

32

[Table of Contents](#)

Part II. Other Information

Item 1. Legal Proceedings

None. See Note 14 of the Unaudited Condensed Consolidated Financial Statements for a description of legal proceedings.

Item 1A. Risk Factors

Except as set forth below, there have been no material changes to the risk factors set forth in our 2019 Annual Report on Form 10-K for the year ended December 29, 2019, filed with the SEC on March 13, 2020, which includes a detailed discussion of our risk factors at Part I, Item 1A, Risk Factors, which discussion is hereby incorporated by reference into this Part II, Item 1A.

The COVID-19 pandemic could have a material adverse effect on our business, cash flows and results of operations.

On January 30, 2020, the World Health Organization (“WHO”) declared a global emergency due to the COVID-19 pandemic, and on February 28, 2020, the WHO raised its assessment of the threat from high to very high at a global level. The outbreak has resulted in significant governmental measures being implemented to control the spread of COVID-19, including, among others, restrictions on travel, business operations and the movement of people in many regions of the world in which the Company operates, and the imposition of shelter-in-place or similarly restrictive work-from-home orders impacting many of the Company’s offices and employees, including those located in the United States.

As a result, the Company has temporarily closed or substantially limited the presence of personnel in its offices in several impacted locations, implemented travel restrictions and withdrawn from various industry events. The impact of the Company’s work-from-home policy that was implemented to protect its global workforce has contributed to delays in certain operational processes, including its routine quarterly financial statement close process for the first quarter of fiscal 2020. The Company has also experienced some disruption and delays in its supply chain, customer deployment plans, and logistics challenges, including certain limitations on its ability to access customer fulfillment and service sites. The Company expects these existing conditions to have an adverse impact on its revenue and results of operations for the fourth quarter of fiscal 2020 and, possibly, in future quarters during the current and next fiscal year.

The COVID-19 pandemic and its potential effects on the Company’s business in its fiscal 2020 remain dynamic, and the broader implications for its business and results of operations remain uncertain. These implications could include further disruptions or restrictions on the Company’s ability to source, manufacture or distribute its products, including temporary disruptions to the facilities of its contract manufacturers in China, Taiwan, Philippines and Singapore, or the facilities of its suppliers and their contract manufacturers globally. Additionally, multiple countries have imposed and may further impose restrictions on business operations and movement of people and products to limit the spread of COVID-19. Delays in production or delivery of components or raw materials that are part of the Company’s global supply chain due to restrictions imposed to limit the spread of COVID-19 could delay or inhibit its ability to obtain the supply of components and finished goods. If COVID-19 becomes more prevalent in the locations where the Company, its customers or suppliers conduct business, or the Company experiences more pronounced disruptions in its operations, the Company may experience constrained supply or curtailed demand that may materially adversely impact its business and results of operations. In addition, any other widespread health crisis that could adversely affect global and regional economies, financial markets and overall demand environment for the Company’s products could have a material adverse effect on the Company’s business, cash flows or results of operations.

The risks in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks not currently known to us or that we currently deem to be immaterial may also adversely affect our business and results from operations.

Rising concern of international tariffs, including tariffs applied to goods traded between the United States and China, as well as potential export restrictions, could materially and adversely affect our business and results of operations.

Regulatory activity, such as enforcement of U.S. export control and sanctions laws, and the imposition of tariffs and export regulations, have in the past and may materially limit our ability to make sales to customers in China, which may harm our results of operations and financial condition. Since the beginning of 2018, there have been several rounds of U.S. tariffs on Chinese goods taking effect in 2018 and 2019, some of which prompted retaliatory Chinese tariffs on U.S. goods. Approximately \$1.8 million, or 15%, of our total revenue for the year ended December 30, 2018, and approximately \$1.1 million, or 11%, of our total revenue for the year ended December 29, 2019 and \$56,000 or 1% for the nine months ended September 27, 2020, consisted of sales of our EOS S3 and FPGA products to both OEMs and ODMs in China.

The institution of trade tariffs both globally and between the U.S. and China specifically carries the risk of negatively affecting China’s overall economic condition, which could have a negative impact on us as we derived and expect to continue to derive a significant amount of revenue from China. Further escalations of trade conflicts between the United States and China, or other countries where we have operations, may have a material adverse effect on our gross margin.

In addition to recent trade tariffs, if U.S. export controls expand to place new restrictions on the exportation of our products or a subset of our products, such controls could have a material adverse effect on our operating results. Moreover, concerns that U.S. companies may not be reliable suppliers may in the future cause some of our customers to replace our products in favor of products from other suppliers.

Imposition of tariffs or sustained export restrictions could cause a decrease in the sales of our products to customers located in China or other customers selling to Chinese end users, which would directly impact our business and operating results. Further, changes in United States trade policy could trigger retaliatory actions by affected countries, which could impose restrictions on our ability to do business in or with affected countries or prohibit, reduce, or discourage purchases of our products by foreign customers, leading to increased costs of products that contain our components, increased costs of manufacturing our products, and higher prices of our products in foreign markets. Changes in, and responses to, United States trade policy could reduce the competitiveness of our products and cause our sales and revenues to drop, which could materially and adversely impact our business and results of operations.

Chief Financial Officer

(as Principal Accounting and Financial Officer and on behalf of the Registrant)

CERTIFICATIONS

I, Brian C. Faith, certify that:

1. I have reviewed this quarterly report on Form 10-Q of QuickLogic Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
